### **LEGENDARY AFRICAN-AMERICAN OWNED INTERNET RADIO STATION HOLDS BLUES & MUSIC FESTIVAL**

**Atlanta** - Love Radio, will host the 8<sup>th</sup> Annual Great Atlanta Blues and Music Fest, July 21-23, 2006 at Woodruff Park located near Peachtree and Auburn Avenue.

As thousands of visitors swarm into the city of Atlanta for the Megafest and National Black Arts Festival, Blues lovers, along with music lovers, can also indulge in their own festival as local and national artists converge on Sweet Auburn, an area made famous for the rhythmic sounds of the South.

In the same corner of the world where James Brown, Gladys Knight & The Pips and Little Richard once performed, soon-to-be legends such as Big Robert T and Al Lendsey will present their case for being the next big name in music and blues.

The fest also features R&B, folk and gospel artists which makes the event one the most versatile and diverse music shows of the year. Grammy wining songwriter Harvey Scales and soulstress Ms. Monique top off a long list of talented artist who will appear on one of several stages during the weekend.

The Music Fest promotes the rich musical heritage of the Georgia and the Atlanta area particularly the Auburn Avenue Corridor. Tom Davis, known in many music circles as Dr. Love, is the event host. In partnership with the fest, Love Radio will broadcast the performances live over the World Wide Web through the Web site: [www.dr-love.com](http://www.dr-love.com).

Love Radio specializes in the promotion and marketing of independent artists, businesses and events. The well-established Internet radio station also provides logistical and production support for some of the largest events and festivals in the Southeast region including the Sweet Auburn Spring Fest, Reynoldstown Festival and the Southwest Community Festival among others.
